

WEAKNESS DEVELOPS IN MANY QUARTERS, BUT TRADING IS MODERATELY LARGE.

Continued irregularity marked yesterday's trading in Curb shares and weakness appeared in many quarters. Comparatively large losses were recorded in some industrial specialties. There was a moderate demand for independent oils, resulting in small advances in some more prominent issues in that group. Trading was on a moderately large scale.

In the industrials General Asphalt led several points and Loew, Inc. and Lof, Inc. reacted after establishing new high points in the morning. American Tobacco Securities was heavy and Tobacco Products Report lost more than 2 points. Moderate strength was shown in some of the steel and iron shares, among which Consolidated Steel was the most prominent. Some of the shipments will be started before the end of the week.

Among the oils to show strength were Petroleum Refining, which gained 3 points, and Home Oil and Refining. Midwest Petroleum gained a point, while Simms Petroleum lost almost 2. Standard Oil stocks were dull and lower.

Bonds were active and generally lower. Copenhagen 5 1/2s, Interborough Rapid Transit 5s and French Government issues lost a point or more. Total sales range of prices follow:

Table with columns: Name, High, Low, Last, Change. Includes various stocks like Am. Express, Am. Tobacco, etc.

WASHINGTON, Oct. 16.—The House today adopted a resolution directing the Agriculture Department to issue a new action report on November 2 showing the condition of the crop as of October 25. The resolution goes to the Senate, in which early action will be urged by Senators from Southern States. In reports filed with the agriculture committee cited complaints of cotton growers that the crop was overestimated this month by the department, as abandoned acreage was not taken into consideration, and that, as no other report would be issued, the predicted yield of cotton would result in financial loss to cotton planters.
